

**Conférence du GERAC et  
de la Chaire Stephen-A.-Jarislowsky en gestion des affaires internationales**

## **Vulnerability to disasters in Southeast Asia and their impacts on the region's sustainable development**

**Date** : Jeudi 15 décembre 2016

**Heure** : 12 h 00 à 13 h 00

**Lieu** : Salle Télésystème (1609), Pavillon Palasis-Prince, Université Laval

**La conférence sera présentée en anglais**

**Conférencière** : Dre Lisa Hiwasaki

Dr. Lisa Hiwasaki is an environmental anthropologist with more than 15 years' experience in the field of environment and international development. She is currently based in Hanoi working for the World Agroforestry Centre (ICRAF)'s Vietnam Office. Before that, she had spent four years in Jakarta working for the United Nations Educational, Scientific and Cultural Organization (UNESCO)'s Indonesia Office. Ms. Lisa Hiwasaki holds a PhD in international development focusing on environmental policy (Yokohama National University), a MA in Anthropology (University of British Columbia), and a BA in Sociology and Anthropology (Carleton College). She has published numerous scientific articles in Canada, Indonesia, Japan, the Philippines, Timor-Leste and Vietnam.
